Soft Skills

Teamwork, Problem-solving, Communication, Time management, Result-oriented

Additional Skills

Public Speaking, Writing, Sports (Cricket and E-Sports)

Languages

English, Hindi

Certifications

- HackerRank - Java Certificate
- SkillSequel - Computer Networking

Work Experience

OneTruWeb Software Solutions Private Limited   Sep, 2022 - Mar, 2023
Full-Stack Development Intern

OneTruWeb Software Solutions is a software development company that offers user interface UI development tools and components for a range of developer applications across all platforms.

- Built and deployed full-stack applications leveraging Laravel, Spring Boot, and Spring MVC.
- Designed relational database schemas and managed data using MySQL and MongoDB.
- Enhanced system efficiency using Hibernate for ORM.
- Developed dynamic front-end interfaces with JavaScript.
- Worked closely with mentors to debug and optimize application workflows.

NetzOptimize Inc   Aug, 2023 - Present
Software Engineer

NetzOptimize is a premier software company offering comprehensive end-to-end development services to businesses of all sizes.

- Developed and maintained scalable web applications using Next.js, Laravel, and React.js.
- Designed and implemented RESTful APIs, integrating backend systems with Node.js.
- Enhanced application performance and optimized database queries with MySQL and MongoDB.
- Utilized TypeScript for building robust and maintainable codebases.
- Implemented CI/CD pipelines using GitHub Actions to automate deployment processes.
- Collaborated with teams to deploy solutions on AWS, ensuring high availability and scalability.

Projects

OwnerDirect

ownerdirect.com

Associated with NetzOptimize Inc.

- Developed OwnerDirect.com, a vacation rental website connecting property owners and travelers.
- Used Core PHP, Eloquent, MySQL, and integrated with Escapia API for seamless data synchronization.
- Created a booking cancellation system integrated with Stripe for secure payment processing.
- Implemented hotel booking APIs such as Escapia and NextPax for enhanced functionality.

- SkillSequel - Linux
- SkillSequel - NodeJs
- SkillSequel - ReactJs

Maor

maor.org

Associated with NetzOptimize Inc.

- Contributed to Maor.org, a React-based platform with a Laravel backend.
- Integrated Braintree as a payment gateway for seamless transaction processing.
- Implemented subscription management tools to enhance user experience and automate renewals.

BuddyPass

apps.apple.com/us/app/buddypass/id6449385742

Associated with NetzOptimize Inc.

- Developed BuddyPass, a mobile app with a React Native frontend and Node.js (TypeScript) backend.
- Designed and implemented a trip management system, enabling users to invite others, plan itineraries, and split bills.
- Integrated Duffel's flight booking API for seamless travel planning and booking.
- Integrated Agora for real-time user chats and Firebase for notifications.

Love Together

love-together.com

Associated with NetzOptimize Inc.

- Contributed to Love-Together.com, a Next.js and TypeScript-based platform with a Node.js backend.
- Developed features to send notifications and emails to users regarding their compatibility.
- Integrated Firebase for authentication, enhancing security.
